

# Seminar - types of distributed systems

---

*Distributed systems - Student version*

**Dr Leonardo Mostarda,**  
**School of Science and Technology,**  
**Camerino University, Italy**  
Version 2.0, 1 March 2013

### **Question 1**

The student should provide a clear distinction between cache and replica. Describe the pros and cons of using replicas.

### **Question 2**

When would you advise the use of cluster instead of grid computing?

### **Question 3**

Provide a short description of the following types of distribute systems: enterprise information systems and pervasive systems.
